- 7.5 Parking areas are to be constructed in a manner which will permit adequate drainage, snow removal, and maintenance.
- 7.6 Unless the development permit for a new residence also includes a garage, the Municipal Planning Commission may require the two required parking spaces be hard surfaced with a material limited to concrete, asphalt or paving stones and installed prior to occupancy.
- 7.7 Off-street parking may be located in the front yard provided the parking space is not situated directly in front of the residence.
- 7.8 Parking of recreation vehicles shall be as follows:
 - (a) No person shall keep or permit the storage of a recreational vehicle in any part of a front yard between November 1 and March 31 of each year;
 - (b) Year round storage for recreation vehicles shall be provided on a designated parking pad in the rear or side yard only;
 - (c) Notwithstanding subsection (b), between April 1 and October 31, a recreational vehicle may be parked temporarily on a designated parking pad subject to Section 7.7;
 - (d) Notwithstanding subsections (a), (b) or (c), if the recreational vehicle is the sole means of transportation for the occupants of the household the recreational vehicle may be parked year round as provided in subsection (c).

Payment In Lieu of Providing Off-Street Parking

- 7.9 The option of payment in lieu of providing off-street parking spaces shall apply to the downtown core only (Figure 4.7.1) and is subject to the following:
 - (a) at the option of the Municipal Planning Commission a developer may, subject to the approval of Council, pay the Town such amount of money on such terms as the Council considers reasonable in return for the equivalent public parking space to be provided by the Town elsewhere in the land use district;
 - (b) a fund to be known as the "Off-Street Parking Fund" is hereby established;
 - (c) any money received by the Town in lieu of providing off-street parking spaces shall be paid into the "Off-Street Parking Fund", and such money shall be used for the development of off-street parking facilities in the land use district from which the funds are derived;
 - (d) the amount of money to be paid into the "Off-Street Parking Fund" shall be a per stall charge, based on the costs involved in the land acquisition, facility construction and facility maintenance. The number of stalls to be used in the calculation of a per stall charge shall be based on the parking requirements in this schedule.

7.10	Tables 4.7.1 and 4.7.2 are to be used to calculate the minimum number of off-street parking spaces a use is required to provide.
7.11	Off-street parking requirements based on floor area are to be computed on the gross floor area (GFA) of the building.

7.12	Calculation of off-street parking requirements resulting in a fractional number of 0.5 or greater shall be rounded up and rounded down when resulting in a fractional number of 0.49 or less.
7.13	A multiple use development must provide parking in an amount equal to the number of spaces for all uses, except where a shared parking provision is approved by the Development Authority.
7.14	A shared parking provision based upon the proposed sharing of parking spaces between two or more uses must include a written agreement between the owners on record.

Where such off-site parking is approved, a caveat may be registered against the lot to guarantee the continuous use of the site for parking.

- 7.15 Where a use is not listed, minimum required off-street parking shall be provided as required by the Development Authority having regard to the listed use that is most similar to the proposed use. As an alternative, the Development Authority may require a parking study to be prepared by a qualified professional at the applicant's expense to determine the parking requirements for a use not listed in Tables 4.7.1 and 4.7.2.
- 7.16 All required parking spaces are to be provided on the same lot as the building or use, except where the Development Authority may permit off-site parking spaces to be provided on a lot within 152.4 m (500 ft) of the building or use if, in the Development Authority's opinion, it is impractical to provide parking on the same lot as the building or use. Where such off-site parking is approved, a caveat may be registered against the lot to guarantee the continuous use of the site for parking.

Barrier-free Parking

- 7.17 The minimum number of barrier-free parking spaces to be provided for the disabled is to be a portion of the total number of off-street parking spaces required, in accordance with Table 4.7.3: Barrier-Free Parking Spaces.
